

Malfunctions and Diagnostics

If you receive any of the following malfunctions or errors on your ELD device, you must review your records of duty status for accuracy as soon as safely possible. You will be required to maintain paper logs if the malfunction hinders the accurate recording of hours-of-service data (which includes a location at each change of duty status). The Omnitracs ELD device immediately notifies the motor carrier of the malfunction without driver intervention.

Power An ELD must be powered and function within one minute of the vehicle's engine receiving power and remain powered for as long as the vehicle's engine stays powered.

Engine Synchronization An ELD is required to establish a link to the engine ECM and monitor its connectivity to the engine ECM and its ability to retrieve the vehicle parameters.

Timing The ELD must cross-check its compliance with the external UTC source and must record any timing compliance malfunction.

Data Recording An ELD must monitor its storage capacity and integrity and must detect a data recording compliance malfunction if it can no longer record or retain required events.

Data Transfer An ELD must implement in-service monitoring functions to verify that the data transfer mechanism(s) are continuing to function properly.

Positioning An ELD must monitor the availability of position measurements meeting the listed accuracy requirements and track the distance and time from the last valid measured point.

Other Any other ELD-detected malfunction such as Bluetooth, device, etc.

More help information and step-by-step instructions can be found on the IVG by tapping on the help icon in the bottom left area of the screen.

Text INFO or HELP to BeFree (233733)

Truckers are the eyes and the ears of our nation's highways. If you see evidence of human trafficking, call the National Hotline and report your tip.

For law enforcement to open an investigation on your tip, they need "actionable information."

This would include:

Descriptions of cars (make, model, color, license plate number, etc.) and people (height, weight, hair color, eye color, age, etc.).

Take a picture if you can.

Specific times and dates (When did you see the event in question take place? What day was it?)

Addresses and locations where suspicious activity took place

Questions to Ask:

Do you keep your own money? If not, who does?

Do your parents/siblings/relatives know where you are? If not, why not?

When was the last time you saw your family?

Are you physically or sexually abused?

Are you or your family threatened? What is the nature of the threats?

Trafficking Red Flags to Look For:

Lack of knowledge of their whereabouts; not in control of ID/passport.

Restricted or controlled communication — not allowed to speak for self CB chatter about "commercial company" or flashing lights signaling "buyer" location.

Acknowledgement of a pimp and making a quota. Signs of branding or tattooing of trafficker's name (often on the neck).

A van or RV that seems out of place out by trucks; a vehicle dropping someone off at a truck and picking them up 15-20 minutes later.

Warning:

If you're watching a crime in progress, call 911 and then call the hotline. If you're at a truck stop/travel plaza or any other place of business, notify the manager-on-duty. Please do not approach traffickers.

Allow law enforcement to deal with traffickers and recover victims.

Approaching traffickers is not only dangerous for you and their victims but could lead to problems in the eventual prosecution of traffickers.

March 2021

View Eld Driver Log

1. From the main screen, tap the **Hours of Service icon**.
2. Tap the **Day Log tab**.
3. Tap the **Inspector button**.

The device is in **inspector mode** and the DOT officer can see more details in the **Day Log tab** for the selected period.

Scroll through the **available days** by using the arrows in the top right. Use the **scrollbar** to reveal more records for that particular day.

If asked, tap the **Header button** to show that information to the officer.

4. When prompted, tap the **Graph tab** to show your day log.

Scroll through the **available days** by using the arrows in the top right.

Tap the **Next and Previous buttons** to cycle through the status events.

Tapping the **Info button** will show you the carrier information for the driver for the selected day.

ERODS Transfer

All ERODS are transferred directly to the FMCSA

1. Tap the **Day Log tab**.
2. If you are still in "Inspector mode" tap on the **Driver button**.
3. Tap the **ERODS button**.
4. Select **Web Services or Email**.
5. Enter the Safety Official/Investigation Code provided by the safety official requesting the transfer into the **Comment** field, then tap **Send**.

A **confirmation screen** appears. If the transfer is unsuccessful, the display is considered a compliant secondary record of duty status.
