

## Daylight Savings Time Change

Dear Omnitrac AS/400 customer

This letter serves as a reminder of the upcoming Daylight Savings Time change on Sunday, November 6, 2022 at 2:00 am. This will require clocks to be adjusted and moved back by one hour. For AS400 users, changes will need to be made to the QTRACS Subsystem and possibly to the AS/400 operating system. If the adjustment is not made, your QTRACS application will not be able to sign on and communicate with the NMC. This will impact your ability to communicate with your vehicles.

We have an automated process available for AS400 users that will apply the time change for your QTRACS/400 software application.

This is a reminder for customers that have an automated process that changes the Now in Daylight Savings flag in QTRACS. You will need to update the scheduled job.

Key the following command WRKJOBSCDE from any command line. Hit Enter. Locate the schedule entry that updates the Now in Daylight Savings flag. Type option 2 to change.

```
Work with Job Schedule Entries                                02/11/13 13:08:59

Type options, press Enter.
 2=Change   3=Hold   4=Remove   5=Display details   6=Release
 8=Work with last submission   10=Submit immediately

-----Schedule-----
Opt  Job      Status  Date      Time      Frequency  Recovery  Next
  2_  QUALCOMDLS  SAV    11/04/12  02:00:00  *ONCE     *SBMRLS   Submit
                                           Action    Date
```

There are a couple changes that need to be made to the job schedule entry. Change the first parameter in the CALL statement from an 'Y' to a 'N'.

The second change is to change the Schedule date to '11/06/22'.

```

Change Job Schedule Entry (CHGJOBSCDE)

Type choices, press Enter.

Job name . . . . . > QUALCOMDLS      Name
Entry number . . . . . > 000007      000001-999999, *ONLY
Command to run . . . . . > *ALL PGM(OMNISITE/DOWNFORDLS) PARM('N' 'N')

-----

Frequency . . . . . *ONCE           *SAME, *ONCE, *WEEKLY...
Schedule date . . . . . '11/07/21'   Date, *SAME, *CURRENT...
Schedule day . . . . . *NONE        *SAME, *NONE, *ALL, *MON...
Schedule time . . . . . '01:59:00'   Time, *SAME, *CURRENT

-----
