Modified on: Wed, 17 May, 2023 at 7:49 PM

Master Portal
## v4.16.0 (2023-05-12)

Changes:

1. Added permissions for Devices, Accounts, and Webhook pages.
2. Cookie banner for user privacy settings.
3. For bad mounting driver and road, now images will be shown.
4. New config option for Drowsy Driving and Distracted Driving.
5. New event - Lizard eye distraction added, earlier it was under Distracted Driving.

Bug Fixes:

1. Incorrect date is shown for bad mounting driver camera.
2. Date format issue on the user management page.
