Routing

Improvements

RPE-105399 – Plotted routes on map do not allow router to change route markers between stop and route
We resolved an issue in the Omnitracs Routing and Dispatch Client where the planning marker text on the route did not change when changing the route markers under map options.

Compatibility Requirements

Please refer to our minimum requirements for system components that are used with these solutions:

[Compatibility requirements for devices, operating systems, and browsers](#)

[Certified mobile devices](#)

[RNA routing and dispatch client specifications](#)
