

# Omnitracs One – v6.9 Hotfix 3-13-24 Release Notes

## RNA Host v6.9.5.5

Release Notes

Updated March 07, 2024

### Contents

RNA – Common.....	2
RNA – Dispatch .....	2
RNA – Reporting.....	7
Compatibility Requirements.....	7

## RNA – Common

### Improvements

#### RPE-112554 – Admin Users can now Export Mobile Forms

We added the ability in Mobile Forms to allow users with Admin and Super Admin levels of access to export forms so they can be used in Drive.

## RNA – Dispatch

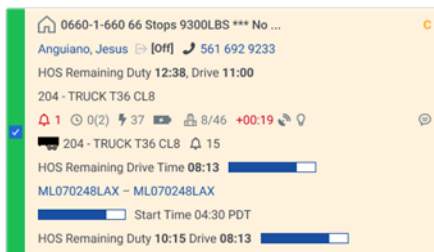

### Improvements

#### RPE-112740 – Exception Alerts Missing Description Field

We fixed an issue where Route Exception Rule Notifications had a blank description in the Emails.

#### RPE-112660 – Users unable to see Unplanned Route Cards in Peach color

We resolved an issue where the users were unable to differentiate between the planned and unplanned routes. We added a distinct peach background to the Unplanned Route Cards in Cards and Map View, while maintaining the white background color for the planned route cards.

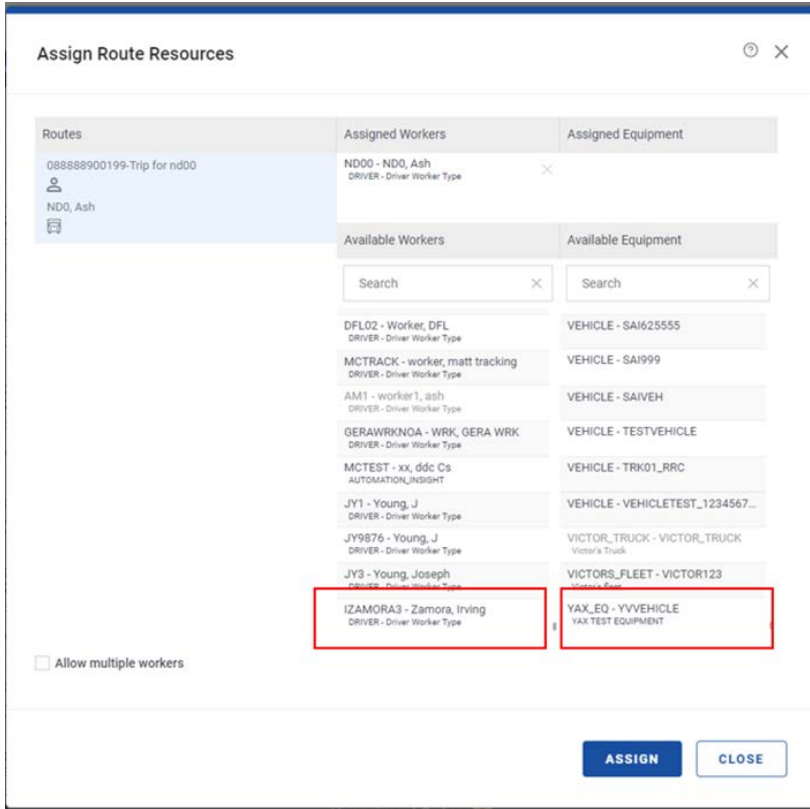

#### RPE-112951 – Users unable to view the complete Unplanned Route Cards in Map View

We resolved an issue where the users were unable to view the complete information on the Unplanned Route Cards in Map View.

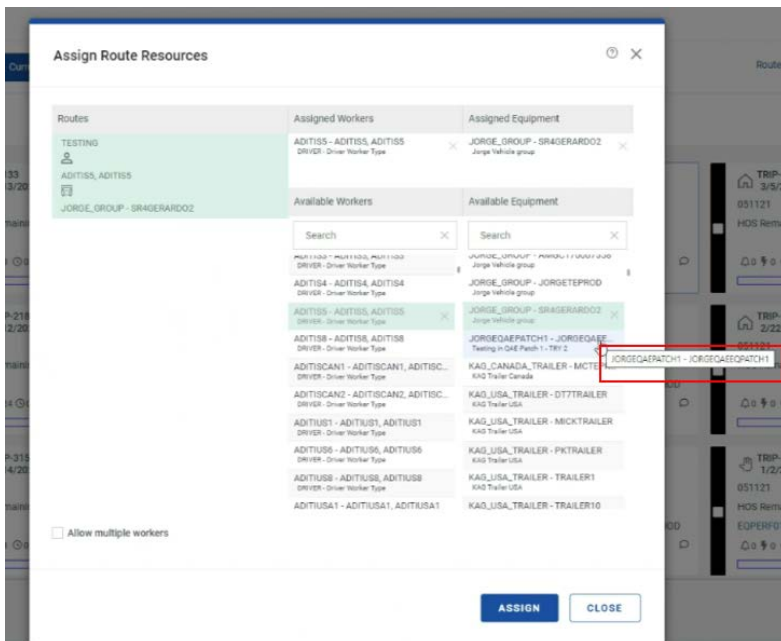

#### RPE-112796 – Users unable to access the last item in the Worker and Equipment list

We resolved an issue where users were unable to access the last item on the Worker and Equipment list in the Assign Route Resources modal.

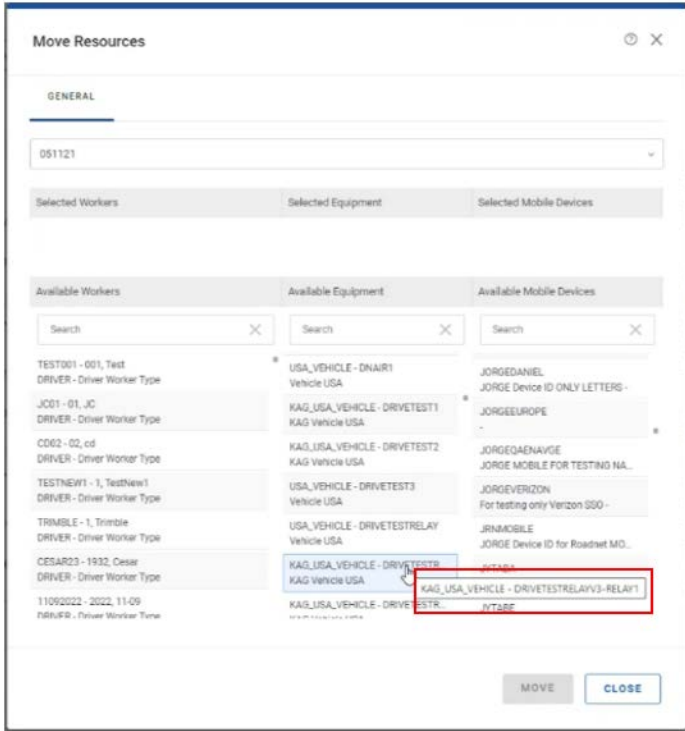

**RPE-110636 – Users unable to see long texts in Worker and Equipment list**

We resolved an issue where the users were unable to view the complete text in the worker and equipment list in Assign Route Resources Modal. We added an ellipsis to indicate additional text and a tooltip for users to hover over it and view the complete text.

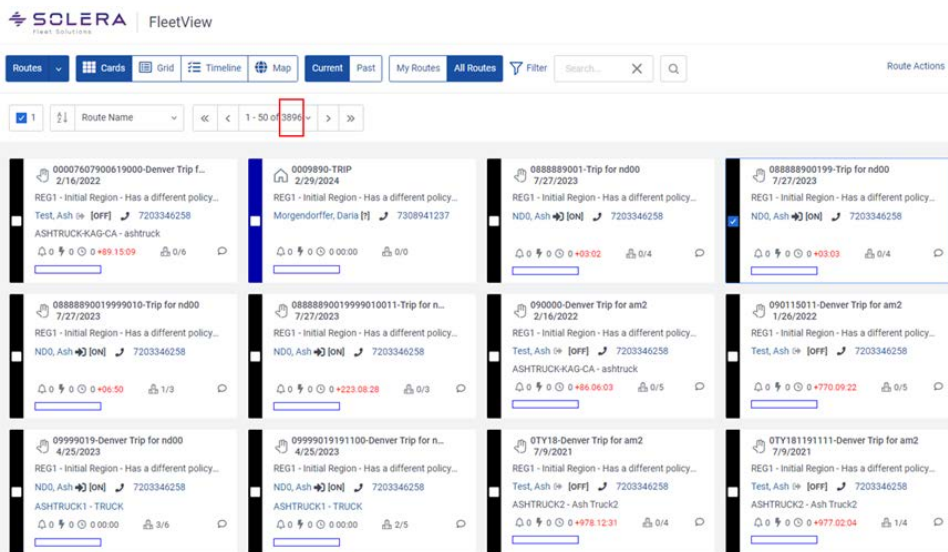

**RPE-112806 – Users unable to see long text in Equipment and Mobile Devices list**

We resolved an issue where the users were unable to see the complete text in the Equipment and Mobile Devices list in Move Resources Modal. We added an ellipsis to indicate additional text and a tooltip for users to hover over it and view the complete text.

**RPE-112682 – Users unable to view the Total Number of Routes in the Pagination Dropdown**

We resolved an issue where the users were unable to view the Total Number of Routes in the Pagination dropdown in the Routes view.

**RPE-112288 – Users unable to see the updated design of some modals in Spanish**

We resolved an issue where the users saw the old design (6.8v) of the following modals while using the Spanish version of Fleetview-:

1. FleetView Settings
2. Assign Resources
3. Insert Delay
4. Insert Layover
5. Insert Maintenance
6. Remove Stops
7. Move Resources
8. Adjust Actuals
9. Edit View Configuration Modals
10. Add Route
11. Edit Route
12. Import Routed Solution

**RPE-112552 – Users unable to see the updated design of Mark as Unserviceable Modal in Spanish**

We resolved an issue where the users saw the old design (6.8v) of the Mark as Unserviceable Modal while using the Spanish version of Fleetview.

**RPE-111984 – Users see old designs of modals for few seconds**

We resolved an issue where the users saw the old design (6.8v) of Cease Dispatch, Edit Route and Insert Reload modal for the first few seconds of the loading phase.

**RPE-108812 – Users see old designs of modals for few seconds**

We resolved an issue where the users saw the old design (6.8v) of Insert Break, Insert Layover and Edit View Configuration Modal for first few seconds of the loading phase.

**RPE-112493 – Users see an overlap between the Route Actions Dropdown and Search Input Field**

We resolved an issue where the users saw an overlap between the Route Actions dropdown and Search input field in the Routes View at view port less than 1600 px.

**RPE-112576 – Users see the Search input field in the third row of the sub-header**

We resolved an issue where the users saw the Search input field in the third row of the sub header in the Routes View at view port less than 1600 px.

## RNA – Reporting

### Improvements

#### RPE-105614 – Deleted Routes Displayed in Route Summary Statistics Report

We resolved an issue where the Route Summary Statistics Report was showing routes that had been deleted.

## Compatibility Requirements

Please refer to our minimum requirements for system components that are used with these solutions:

[Compatibility requirements for devices, operating systems, and browsers](#)

[Certified mobile devices](#)

[RNA routing and dispatch client specifications](#)
