

# OMNITRACS TAX MANAGER 2.1 RELEASE NOTES

Tax Manager 2.1 includes software corrections for IFTA filing and Oregon Highway Use Tax rates.

## Overview

We are pleased to announce that the Omnitrac Enterprise Services, Tax Manager 2.1 release is available. This release includes software corrections.

## Software Corrections

Work Item Number	Issue	Component
TM-3068	Fixed an issue when performing an International Fuel Tax Agreement (IFTA) Filing and the Manitoba filing was missing the tax rates.	Tax Manager
TM-3255	Fixed an issue when performing an International Fuel Tax Agreement (IFTA) Filing, Pennsylvania was not filling the totals fields.	Tax Manager
TM-4142	Fixed an issue where the Oregon Highway Use Tax (HUT) was not being properly calculated when the vehicle is over 80,001 lbs. Registered Laden Gross Vehicle Weight and has more than 5 axles.	Tax Manager
TM-4157	Fixed an issue in Tax Manager in the Reconciliation report where the surcharge column is rounded to two decimal places instead of the four that are needed for the rate.	Tax Manager
TM-4159	Fixed an issue where the Oregon Highway Use Tax (HUT) rates were out-of-date.	Tax Manager
TM-4160	Fixed an issue in Tax Manager Vehicle maintenance where some vehicles in the vehicles tab could not be edited.	Tax Manager
